

Edmund Kunji studied Physics, Biology (MSc 1991) and Chemistry (MSc 1992) at the University of Groningen and painting, drawing and sculpting at the Art Academy Minerva, Groningen, Netherlands. He obtained his PhD in Mathematics and Natural Sciences with Prof. Wil N. Konings and Prof. Bert Poolman in the Department of Molecular Microbiology of the University of Groningen, 1997. He did his post-graduate studies at the MRC Laboratory of Molecular Biology in Cambridge with Dr Richard Henderson, 1996-2000. In 2000 he became a research group leader at the MRC Mitochondrial Biology Unit, in 2002 he became an EMBO Young Investigator, and in 2005 he became Staff Fellow and Director of Studies of Trinity Hall.
