

# Sarah FORIEL

---

## **Early Stage Researcher**

Khondrion,

Radboud University Medical Center, Nijmegen, The Netherlands

foriel.sarah@gmail.com

## **- Education -**

2011 - 2013 Master Physiology Epigenetics and Development

University Joseph Fourier Grenoble I, France

2007 - 2011 Bachelor Molecular and Cellular Biology

University Joseph Fourier Grenoble I, France

## **- Internships/Research experiences -**

**January to June 2013** - Master Research Thesis with Rita GUZUN

Laboratory of Fundamental and Applied Bioenergetic, INSERM 1055, France

Project title: Ischemia-reperfusion induces disorganization of cardiomyocyte IntraCellular Energy Units by altering interaction between mitochondria and  $\beta$ II-tubulin.

**(June 23-28, 2013** - Participation as an attendee/poster presenter at the Gordon Research Conferences on Bioenergetics in Andover, NH)

**June to August 2011** and **May to June 2012** - Voluntary internship and Bachelor Thesis with Danielle DHOUAILLY

Laboratory AGIM-CNRS-FRE\_ Team Ontogenesis, Regeneration and Stem Cells, France

Project title: Ocular ectoderm bipotentiality in chick embryo

**May to June 2011** - Voluntary internship with Lucie SANCEY

Albert Bonniot Institute\_Team 5, INSERM U823: Cible therapy, early diagnostic and cancer imagery, France

**June to July 2009** and **January to July 2010** - Voluntary internship with Catherine GHEZZI

Laboratory Bioclinics Radiopharmaceutics UMR S\_U877 INSERM, France

Project title: Development of a new radiotracer for type II diabetes and insulino-resistance
