

# MITOCHONDRIAL MEDICINE: DEVELOPING NEW TREATMENTS FOR MITOCHONDRIAL DISEASE

4-6 MAY 2016

WELLCOME GENOME CAMPUS, HINXTON, UK

**WELLCOME  
GENOME  
CAMPUS**

**ADVANCED  
COURSES AND  
SCIENTIFIC  
CONFERENCES**

## **SCIENTIFIC PROGRAMME COMMITTEE**

**Patrick Chinnery**  
University of  
Cambridge, UK

**Marni Falk**  
The Children's  
Hospital of  
Philadelphia, USA

**Vamsi Mootha**  
Harvard Medical  
School, USA

**Jan Smeitink**  
Radboud UMC,  
The Netherlands

**Anu Suomalainen**  
University of Helsinki,  
Finland

**Massimo Zeviani**  
MRC Mitochondrial  
Biology Unit,  
Cambridge, UK

## **CONFIRMED SPEAKERS**

Mary Herbert  
Saskia Koene  
Michal Minczuk  
Carlos Moraes  
Michael Murphy  
Holger Prokisch  
Elena Rugarli  
Luca Scorrano  
Valeria Tiranti  
Douglas Turnbull  
Alex Whitworth

## **DEADLINES**

### **Bursaries**

2 March

### **Abstracts**

9 March

### **Registration**

16 March

This conference will bring together world leaders in the field of translational mitochondrial medicine in an interactive programme designed to engage and inspire a new generation of mitochondrial researchers, who will harness this new technology to prevent and treat these devastating diseases. It is the 2nd in our series of meetings on mitochondrial disorders and the quest for novel effective therapies.

## **Scientific sessions**

- Novel mechanisms of mitochondrial disease
- Measuring clinical progression
- Disease biomarkers
- Precision medicines
- Targeted treatment
- Current active trials

A limited number of registration bursaries are available for PhD students to attend this conference. Please see our website for full details.
